GIRLS' INDUSTRIAL SCHOOL,

Which Will Be Started by the Ladies of the Church of the Covenant-The Church of the Covenant has had an exceptionally successful year. The congreexceptionally successful year. The congregation is increasing rapidly—31 were added to its membership last Sunday. A Sunday school of 175 members has been added during the year, and large sums of money have been given to the Home and foreign mission boards of the Presbyterian Church, besides fully five thousand dollars contributed by its members towards the creetion of their own church chiles on the corner of Conpecticut avenue and Eigheone 19 to erection of their own church callice on the corner of Connecticut svenue and Eigh-teenth street. This church will, when erected, be one of the finest churches south of New York. The chapel in which the congregation now worships, is owing to the hospitality of the pewholders, much more commodious than one would at first sup-

pose.
Strangers are always welcome and "slt-tings" in the church are always to be had.
Rev. Dr. T. S. Hamlin, late of the Mount Auburn Church, Cincionati, is an earness, eloquent speaker. He is already a favorite, not only with each member of his church not only with each member of his church and congregation, but with many others in the fast growing locality in which his church is placed. On Saturday next, Nov. 13, at 11 o'clock, an industrial school will be opened by the ladies of the Church of the Covenant in a building at the intersection of Twenty-eighth and M streets and Pennsylvania avenue, just beyond the M street bridge. This industrial school, in which girls of all ages will be taught habits of neatness and industry, and the study of the Bible, is but the beginning of a mission work that promises in the future to rival in usefulness and success the famous Bethany

wors that promises in the future to rival in neefulness and success the famous Bothany Mission of Philadelphia. There it is, exactly 1,250 permits, nearly 250 more permits. That means a big boom in building this year, and there is no telling what number of buildings is yet to go up," and the inspector closed the book with a smile that made him appear as happy as if he had struck a Louislana investment solid.
